UK-BASED SINGER/SONGWRITER TONY MOORE TO RELEASE “AWAKE” A CONCEPT ALBUM THAT HE WROTE AND RECORDED IN 2021

On 11th October 2024, Singer/Songwriter Tony Moore Will Release An Album Called “AWAKE” Which Was Written And Recorded In February And March 2021 With Steve Harris Of Iron Maiden As Executive Producer.

SEPTEMBER 29th, 2024 - (London, UK). Singer/Songwriter Tony Moore will release a new Album titled “AWAKE”, via the MiniMAJOR Music label worldwide on October 11th, 2024.

In February 2021, AWAKE began as a single piece of music that then inspired Tony to continue to create and record an entire concept album. AWAKE is loosely based on three themes: firstly the crazy times of 2020 and 2021, secondly his journey as a musician in the music industry, and finally dealing with his Mother's dementia as he moved into her house to become her primary carer at the start of the lockdown.

The shed in her back garden proved the perfect place to amass his equipment and to create a small studio where Tony recorded and produced the entire record.

Tony says, “My Mother’s shed played a pivotal role in the creation of this album as I was not only able to record music there but also managed to live stream shows throughout the lockdown in it. From March 24th, 2020, I did a two-hour show every night for 110 nights with no break! The Shed even features on the album.”

In 2021, Tony created a unique and very personal One Man Show as a live version of the Album which he has been touring with ever since. The show uses extensive video to create an immersive experience that has gained critical acclaim worldwide, despite the fact that the album hasn’t been released yet.

Tony reunited with Steve Harris in January 2024 to be the opening act for British Lion (Steve’s other band outside of Iron Maiden) and perform AWAKE on their sold-out UK tour. Since then he has played in Europe with British Lion, and undertaken a world tour that included Australia, New Zealand, Japan, and The USA.

Finally, after 3 years the Album will now be available for people to stream and download.

Described by Australian Music site **The Rock Pit** as “A prog rock enigma” and **100 Percent Rock magazine** as “both riveting and entertaining” AWAKE has widely been gaining positive support.

Tony Moore is a multi-instrumentalist, singer/songwriter and highly experienced performer whose eclectic career in the entertainment business tells a unique story.

From being an original member of **Iron Maiden** to playing piano with Meatloaf to having an Xmas hit with his band in Holland to joining **Cutting Crew** as a keyboard player in the late 80s and touring the world with the iconic hit song “(I Just) Died In Your Arms Tonight” Tony has been involved in many pivotal moments in the world of music.
